## Magnifying Lamps

A magnifying lamp is the perfect tool for precision jobs. Its integrated illumination and magnifier help you to enlarge smaller objects and to see their details more precisely. They are available in multiple shapes and sizes.

### LED V. FLUORESCENT LAMP

- **Lamps loaded with fluorescent lamps** have been around for years and provide a stable and clear light. They are also **cheaper** than lamps with LEDs.
- **Magnifying lamps loaded with LEDs** are becoming more popular thanks to the continuous improvements of **LED technology**. These magnifying lamps provide a very **clear light** with a high colour rendering index. In addition, they are **energy efficient**. Some models even allow you to select the colour temperature.

### DIOPTRE

When choosing a magnifying lamp, the optical power or diopter is an important criterion, depending on the type of job. Our range offers following models:

Diopter	Magnification	Magnification object
3	1.75x	75 %
5	2.25x	125 %
8	3x	200 %
12	4x	300 %

Picture	Code	Description	Type	Dioptre	Stand
